NEWS RELEASE

**The Orthopedic Center of Illinois Congratulates October
Employee of the Month Valerie Lovelace, MA**

The Orthopedic Center of Illinois (OCI) is pleased to recognize Medical Assistant Valerie Lovelace as October Employee of the Month. Ms. Lovelace was nominated by a family member of a patient. Her nominator said, "Valerie went above and beyond to make my aunt comfortable at her visits. My aunt has special needs and Valerie was very kind and patient with her. She is wonderful!"

Ms. Lovelace works alongside O.B. Idusuyi, M.D., an orthopedic surgeon and foot and ankle specialist. Before joining OCI in September of 2013, she worked at St. John's Hospital as an MA and is a graduate of Lincoln Land Community College. Congratulations, Valerie!

The Orthopedic Center of Illinois (OCI), founded in 1972, is the region's largest independent, private practice for musculoskeletal care. The practice offers a full continuum of services, including onsite rehabilitation and imaging services. OCI employs the highest level medical and support personnel, with more than 100 employees in Springfield, Jacksonville, Litchfield and surrounding clinic locations. OCI was recognized by the Springfield Business Journal as one the Best Places to Work in Central Illinois and Best Orthopedic Care by the State Journal-Register. Learn more about OCI: www.OrthoCenterIllinois.com.
