### **The Orthopedic Center of Illinois Congratulates September Employee of the Month Christina Prefountain, MA**

The Orthopedic Center of Illinois (OCI) is pleased to recognize Medical Assistant Christina Prefountain as September Employee of the Month. Ms. Prefountain was nominated by a patient for her ability to make people feel comfortable and well cared for while visiting Dr. Joe Williams, an orthopedic surgeon and spine specialist. Before joining OCI in January of 2012, she worked at St. John's Hospital as an orthopedic technologist. She recently graduated from Lincoln Land Community College and will begin classes at Benedictine University in May to pursue her bachelor's as a registered nurse.

Ms. Prefountain sits on the OCI Employee Council, and works with her peers to coordinate organization-wide service projects benefiting community organizations and initiatives to ensure the highest level of patient care and satisfaction. Congratulations, Christina!

The Orthopedic Center of Illinois (OCI), founded in 1972, is the region's largest independent, private practice for musculoskeletal care. OCI offers a full continuum of services and employs only Board Certified physicians chosen for their caring attitudes and superior orthopedic skills. OCI offers on-site rehabilitation and imaging services. Visit the website to learn more: [www.OrthoCenterIllinois.com](http://www.OrthoCenterIllinois.com).
